Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 17, 2005 has been entered.

Claim Status

Claims 1, 2, 4, 5, 8-10, 13, 14, 16-22 and 25-27 are currently pending.

Claims 3, 6, 7, 11, 12, 15, 23 and 24 have been voluntarily cancelled by the Applicants.

Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

Designation of the “profile of the member in a longitudinal direction” and/or “one of a bulge and a depression on at least one lateral side of the member.”

Claim Objections

Claims are objected to because of the following informalities:

Art Unit: 2652

With regard to claim 2 (line 2) and claim 5 (line 2) the word "single" should be deleted.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1, 2, 4, 5, 8-10, 13, 14, 16-22 and 25-27 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

With regard to claims 1, 13, 19 and 25, the phrase "wherein a profile of the member in a longitudinal direction thereof includes one of a bulge and a depression on at least one lateral side of the member and corresponding edges of the case are formed to fit around the profile of the member" has no support in the disclosure as originally filed. More concretely, while it appears that the profile of the member in a longitudinal direction *possibly* includes a depression on at least one lateral side of the bridge part of the member and corresponding edges of the case are formed to fit around the profile of the member (e.g., see FIGS. 3, 4 and 6 in particular, wherein the bridge *appears* to have two depressions on each side of the bridge member), no bulge is disclosed.

Art Unit: 2652

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1, 2, 4, 5, 8-10, 13, 14, 16-22 and 25-27 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With regard to claims 1, 13, 19 and 25, the phrase "wherein a profile of the member in a longitudinal direction thereof includes one of a bulge and a depression on at least one lateral side of the member and corresponding edges of the case are formed to fit around the profile of the member" is vague and indefinite with regard to the disclosure as a whole. Moreover, it is unclear as to what element of the member has such claimed structure. Is it the depressions within the bridge?. There appears to be no indication within the specification or drawings that could be *positively* identified with the newly recited claim language.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William J. Klimowicz whose telephone number is (571) 272-7577. The examiner can normally be reached on Monday-Thursday (6:30AM-5:00PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, A. L. Wellington can be reached on (571) 272-4483. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
